

Bromine tablets 20g

For odourless and continuous water disinfection

Application

Bromine tablets reliably disinfect your spa water and are just as effective as chlorine, without the chlorine odour. The tablets dissolve slowly and release the product over a longer period.

Advantages

- No unpleasant chlorine odour
- Reduced skin and eye irritation
- Assured disinfection through higher pH-tolerance
- Slow dissolving without residue

Product description

Slow dissolving, white 20 g tablets
Contains: 100 g of the product contains
100 g-Bromochloro-5,5-dimethylimidazolidine-
2,4-dione

Dosing recommendations

Check the bromine value once per week using SpaTime test strips, and if necessary add the required number of bromine tablets to reach the optimum value of 3-5 mg/L.
Place the tablets in the filter cartridge or the dosing device in your spa.

Important information

This product should be used solely for the purpose specified.

TIP: Before adding the disinfectant, please check the pH value with SpaTime test strips. If necessary, adjust the pH to the correct value of 7.0 – 7.6 to ensure the best possible efficacy of the bromine tablets.

3-4 tablets/m³
approx. every 2 weeks
