

# Chlorine tablets 20 g

For reliable and continuous water disinfection

## Application

Chlorine Tablets 20 g have a high available chlorine content and therefore reliably disinfect your spa water. Its slow dissolving properties allow consistent chlorination over a longer period. The special formula ensures the chlorine tablets 20 g only dissolve when the filter pump is running to avoid overdosing.

## Advantages

- Stabilised chlorine
- No impurities
- pH neutral
- Prevents fast chlorine degradation at higher temperatures or exposure to sunlight

## Product description

Slow dissolving, white 20 g tablet  
Contains: 100 g of the product contains  
92 g Symclosene

## Dosing recommendations

Check the free chlorine value at least once a week with SpaTime test strips, and if necessary adjust to a level of 1.0 – 1.5 mg/L. Place the tablet in the filter or the dosing device in your spa. Heavy spa use may require more Chlorine Tablets 20 g to maintain a proper residual. Prior to the initial application of Chlorine Tablets 20 g, oxidise your spa with SpaTime Chlorine Granules or Spa Pure. Do not use Chlorine Tablets 20 g to create a chlorine residual from zero.

## Important information

This product should be used solely for the purpose specified.  
Applying Chlorine Tablets 20 g directly in the spa can cause bleaching on spa surfaces.

**TIP:** Before adding the disinfectant, please check the pH value with SpaTime test strips. If necessary, adjust to the correct value of 7.0 – 7.6 to ensure the best possible efficacy of the chlorine tablets.
